REVIEW OF COUNTY DISTRICTS.

REPORT and PROPOSALS of the Kent County Council in relation to the First General Review of County Districts under the provisions of Section 46 of the Local Government Act, 1929.

22Je37 5sd

PART I.

INTRODUCTION.

(1) The duty of a County Council with respect to the re-arrangement of County Districts is set out in Section 46, sub-sections (1) and (2) of the Local Government Act, 1929, as follows :—

> 46. (1) "The council of every county shall as soon as may be after the commencement of this Act, after conferences with representatives of the councils of the several districts wholly or partly within the county, review the circumstances of all such districts and consider whether it is desirable to effect any of the following changes :—
>
> (a) any alteration or definition of the boundaries of any such district or of any parish;
>
> (b) the union of any such district or parish with another such district or parish ;
>
> (c) the transfer of any part of such district or parish to another district or parish ;
>
> (d) the conversion of any such district or any part thereof, if it is a rural district, into an urban district, or if it is an urban district, into or so as to form part of a rural district ;
>
> (e) the formation of any new district or parish ;
>
> and shall forthwith after the review is completed as respects the whole or any part of the county, and before the first day of April, nineteen hundred and thirty-two, or such later date as the Minister may in any case allow, send to the Minister a report of the review, together with proposals as to the changes, if any, which they consider desirable.
>
> Provided that, before making any such proposals the county council shall consult with the councils of the county boroughs adjoining the county, and the Minister shall give those councils an opportunity of laying before him their views on the proposals made by the county council.
>
> (2) The proposals may include proposals for the transfer of a part of a non-county borough to another district, or of another district or part of another district to a non-county borough, and, if the council of the county borough concerned agree, for an alteration of boundaries between a county borough and the county and any district therein ; but, save as aforesaid, the proposals shall not affect any borough."

(2) The County Council has completed the first general review of the circumstances of all county districts in the County and has the honour to send to the Minister of Health this report of such review containing proposals as to changes which it considers desirable.

966092

(3) The following is a summary of the county districts at present existing in the administrative County :—

	No.	Acreage	Population Census 1931	Rateable value at 1st April, 1931
	1	2	3	4
				£
(a) Municipal Boroughs	19	66,995	481,559	3,700,391
(b) Urban Districts	23	62,355	371,350	2,740,175
(c) Rural Districts	23	842,640	341,206	1,904,814
(d) Total	65	971,990	1,194,115	8,345,380

(4) There are in existence 96 detached parts of areas, of which 8 are detached parts of Urban Districts and 88 detached parts of civil parishes in Rural Districts. The civil parishes in the administrative County number 411 of which number 31 are in Boroughs, 23 in Urban Districts and 357 in Rural Districts.

PROCEDURE FOLLOWED.

(5) The detailed investigations in relation to the review have been carried out on behalf of the County Council by the following members under the Chairmanship of The Right Hon. Laurence Hardy, P.C. :—

Colonel A. S. Barham, C.M.G.
Allington Collard, Esq.
Sir Mark Collet, Bart.
W. Colthup, Esq.
The Right Hon. Lord Cornwallis, C.B.E.
C. A. Elgood, Esq.
G. J. Gully, Esq.
The Rev. Thomas Harrison.
E. W. Hussey, Esq.
R. L. Murray Lawes, Esq.
J. E. Monins, Esq.
F. Walter Payne, Esq.

(6) In January, 1930, a letter was addressed by the Clerk of the County Council to the County Borough Councils adjoining the administrative County, and the Borough, Urban and Rural District Councils in the County calling attention to the provisions of Section 46 of the Local Government Act, 1929, indicating that the County Council intended to take steps under that Act to review the circumstances of all county districts, and to consider what changes, if any, were desirable, at the same time requesting the various councils to formulate and submit proposals for consideration.

(7) In response to the request before referred to many helpful memoranda were received from the local authorities concerned, some of the proposals submitted being schemes agreed between the local authorities affected thereby. After the proposals contained therein had been tabulated and a preliminary survey of the position made the County was divided into areas, each area consisting of such districts as it was considered could be conveniently grouped for the purpose of conferences.

(8) During the period covered by the review conferences were held between representatives of the County Council and the county districts and parishes affected by the proposals submitted, such conferences being held at the Sessions House, Maidstone, and at other centres in the County, viz.: Ashford, Bromley, Canterbury, Dover, Folkestone, Margate, Sevenoaks and Sittingbourne. In cases where special problems required consideration an inspection was made of the areas affected by the proposals submitted.

(9) The statutory requirement to consult with the councils of County Boroughs adjoining the administrative County has also been observed, and conferences were held with representatives of the County Boroughs of Canterbury and Croydon.

(10) The conferences proved, in general, to be of material assistance in obtaining a frank interchange of views in the friendliest spirit. A better understanding between the local authorities, in most instances, was undoubtedly promoted, a large measure of agreement was obtained, and objections to many of the proposals of the County Council, it is hoped, have been obviated.

(11) Following the conferences before referred to, and after considering in detail the representations submitted by the local authorities, tentative views were framed, and, in order that liberal publicity should be given to them they were circulated not only to the councils of the county districts concerned but also to the parochial authorities, thus affording all authorities an opportunity of submitting observations thereon for consideration.

(12) After such observations had been received and considered, and where the circumstances appeared to justify such a course, a second conference was held with some of the local authorities affected in order that every avenue should be explored which might lead to satisfactory proposals acceptable to all parties being made. Where any variations were made in the tentative views already indicated to local authorities revised tentative views were circulated to the authorities concerned and an opportunity thus afforded to them of submitting any further observations for consideration. Where such observations were received they were duly considered.

(13) The views of all authorities concerned having been obtained in the manner previously indicated, and the circumstances of each district having received consideration, the proposals now submitted as to the changes considered desirable were formulated and presented to and approved by the County Council at a meeting held on the 18th November, 1931. Pursuant to the powers conferred upon it by the Local Government Act, 1888, and all other powers enabling it in that behalf the County Council at the same meeting appointed a Committee, consisting of the members mentioned in paragraph 5, to settle and send to the Minister the report of the review including any consequential proposals and any other incidental matters or things.

PROPOSALS MADE.

(14) The detailed proposals of the County Council as to changes which are considered desirable are set out in Parts 2, 3, 4 and 5 hereof on pages 17-71.

The general effect of such proposals, if made operative, may be summarised as follows :—

(a) The number of county districts in the County will be reduced from 65 to 58 (see page 9).

(b) The boundaries of the following 14 Boroughs will be altered :—

Bromley.	Gravesend.	Queenborough.
Deal.	Hythe.	Rochester.
Dover.	Lydd.	Sandwich.
Folkestone.	Maidstone.	Tunbridge Wells.
Gillingham.	New Romney.	

(c) The boundaries of the following 19 Urban Districts will be altered :—

Ashford.	Herne Bay.	Southborough.
Beckenham.	Northfleet.	Tonbridge.
Bexley.	Sandgate.	Walmer.
Cheriton.	Sevenoaks.	Whitstable.
Chislehurst.	Sheerness.	Wrotham.
Crayford.	Sidcup.	
Dartford.	Sittingbourne and Milton.	

(d) Detached parts, eight in number, of the following Urban Districts will cease to exist as such :—

Cheriton.	Sidcup (3 parts).	Wrotham (2 parts).
Northfleet.	Walmer.	

(e) The area now forming the Wrotham Urban District will be merged in the areas of adjacent districts.

(f) The areas now forming the Urban Districts of Cheriton and Sandgate will cease to exist as such, parts of each being transferred to the Boroughs of Folkestone and Hythe.

(g) The areas of the Urban District of Chislehurst, as proposed to be altered, and the Urban District of Sidcup will be amalgamated, and, with other areas, will form a new Urban District to be known as the Chislehurst and Sidcup Urban District.

(h) A new Urban District, to be known as the Orpington Urban District, will be created out of the Bromley Rural District as proposed to be altered, and the Bromley Rural District will cease to exist as such.

(i) A new Urban District, to be known as the Thanet Urban District, will be created out of the Isle of Thanet Rural District, and the Isle of Thanet Rural District will cease to exist as such.

(j) The boundaries of the following 21 Rural Districts will be altered :—

Blean.	Elham.	Romney Marsh.
Bridge.	Faversham.	Sevenoaks.
Bromley.	Hollingbourne.	Sheppey.
Dartford.	Hoo.	Strood.
Dover.	Maidstone.	Tenterden.
East Ashford.	Malling.	Tonbridge.
Eastry.	Milton.	West Ashford.

(k) The areas of the following Rural Districts will be amalgamated :—

(i) The Blean and Bridge Rural Districts as proposed to be altered. This area to be known as the Bridge-Blean Rural District.

(ii) The Hoo Rural District, and the Strood Rural District as proposed to be altered. This area to be known as the Strood and Hoo Rural District.

(iii) The Faversham and Milton Rural Districts as proposed to be altered. This area to be known as the Swale Rural District.

(l) The boundaries of 209 Rural Parishes will be altered by amalgamation with other areas or parishes and/or other adjustments.

(m) Detached parts of Rural Parishes, 88 in number, scheduled on pages 10 to 12 will cease to exist as such.

(n) The following 4 new Rural Parishes will be created by the de-urbanisation of the Wrotham Urban District, and will form part of the Malling Rural District :—

Borough Green.	Plaxtol.
Platt.	Wrotham.

(o) A new Rural Parish of Barming will be formed by the amalgamation of the Parish of East Barming, as proposed to be altered, and the Parish of West Barming.

(p) The riverside boundaries of the districts, including boroughs, and parishes adjacent to the River Medway and its creeks and branches from Hawkwood to Sheerness will be defined as being in the centre of the river (see page 71).

(15) There are, as already indicated, no less than eight detached parts of Urban Districts and eighty-eight detached parts of civil parishes in the Rural Districts within the County. These have, in the past, led to difficulties in administration, and the County Council proposes the abolition of such areas by incorporating them within the boundaries of adjacent districts or parishes.

(16) It is the view of the County Council that nothing contained in the proposals now made should in any way affect the ecclesiastical divisions of any parish, or the constitution of any ecclesiastical parish, or prejudice, vary or affect any right, power, interest or jurisdiction in or over, or in connexion with any charitable endowment. The boundaries of ecclesiastical parishes will in no way be affected by the proposals of the County Council.

CONSIDERATIONS AFFECTING REVIEW.

(17) The County Council in framing its proposals has endeavoured to secure, as far as circumstances have permitted, that districts shall form good local government units readily and economically administered and with sufficient financial means to carry out their duties in a satisfactory manner. Bearing in mind this object the following matters, amongst others, have been considered by the County Council in relation to its proposals, namely, (a) financial strength and general good government, (b) the wishes of the inhabitants, (c) equity of local burdens, and (d) community of interest.

It should be noted that, in certain districts of the County, it has not been possible, owing to the existence of ancient Boroughs with small populations amidst rural surroundings, to form satisfactory local government units, and in one district, the Dover and Sandwich area, the Review Committee definitely came to the conclusion that owing to the uncertainty of the future development of the Coal Industry it was wiser to postpone any re-arrangement of areas till the next review ten years hence.

(18) It is desirable to state, in relation to the wishes of the inhabitants of an area, that although due regard has been paid to the observations submitted to the County Council as representing the wishes of the ratepayers in an area affected, in a number of instances the consideration of general public advantage has prevented the County Council meeting to the full the wishes expressed by such inhabitants.

(19) The view expressed by the Minister that the questions of compensation and financial adjustments consequent on alterations should not be allowed to affect consideration of proposals on their merits has been adopted. These matters have been regarded as purely consequential, and the general law which is applied by Section 66 of the Local Government Act, 1929, provides the necessary machinery for settling them after alterations have taken place.

CONSEQUENTIAL MATTERS.

Unclassified Roads.

(20) The County Council considers that where a Rural District or part of a Rural District is added to a non-County Borough or to an Urban District the liability for the maintenance and repair of the unclassified roads in the transferred area should be transferred to the Council of the Borough or Urban District as extended.

General Statistics. (Form 1, pages 74 to 114).

(21) The County Council has made every effort to present statistical information in relation to (a) acreage, (b) population and (c) rateable value in a form which it is hoped will materially assist the Government Departments and local authorities concerned.

(22) The County Council has found it necessary to rely upon the district councils concerned to supply the basic figures in respect of the acreage, population and rateable values of parts of areas proposed to be transferred from one district to another. The information is in part, of necessity, based on estimates. In order to eliminate an excessive amount of detail statistical data in respect of any parish or part of a parish amalgamated with or added to another parish in the same rural district has been omitted from this report.

(23) Form 1 contains data in relation to (a) the county districts as at present constituted, (b) the county districts as proposed to be constituted, and (c) the parts proposed to be transferred from one area to another.

Wards and Representation. (Form 2, pages 116 to 129).

(24) The suggested consequential revision of wards and the constitution of the councils of county districts are set out in detail in Form 2. The amendments therein proposed are, in the main, those suggested by the councils of the areas affected and approved by the County Council. In cases where no assistance has been rendered by a local authority in respect of these matters the County Council has made proposals.

(25) Attention is called to the division into and revision of wards and the constitution of the councils of the Urban Districts of Ashford, Chislehurst and Sidcup, Herne Bay, Orpington, Thanet and Whitstable, and the constitution of the councils of the proposed new Bridge-Blean, Strood and Hoo, and Swale Rural Districts.

County Electoral Divisions.

(26) It is hoped that the general review of County Electoral Divisions in accordance with the procedure laid down in Section 50 of the Local Government Act, 1929, will be completed before any Order issued by the Minister under the provisions of Section 46 of the Local Government Act, 1929 takes effect, and no proposals are therefore made for the adjustment of boundaries of County Electoral Divisions consequent on changes of local government areas arising out of the review of county districts.

Differential Rating. (Form 3, pages 131 to 133).

(27) Consideration has been given to the matter of differential rating, in conjunction with the total rates levied in the various areas affected by the review as shewn in Form 3, and to paragraph 11 of Memorandum L.G.A. 24 in which the Minister indicates that differential rating should not be allowed unless warranted by exceptional circumstances.

(28) The question of granting differential rates has not been regarded as a factor in deciding proposals but merely as a consequence rendered imperative for equitable treatment on the alteration of an area. The conclusions reached are that, in the event of the County Council's proposals in relation to the following county districts being given effect to, consideration should be given to differential rating in such areas.

Boroughs.	Urban Districts.
Deal	Crayford
Dover	Herne Bay
Folkestone	Northfleet
Gillingham	Sevenoaks
Gravesend	Sheerness
Hythe	Whitstable
Rochester	

(29) The County Council considers that the amount of differential rating (if any) and the period in which it shall operate can best be left to the Minister to determine.

(30) It is proposed that in any case where the special hereditaments which belong to Class 3 specified in the first column of the table contained in Part 2 of the Second Schedule to the Rating and Valuation Act, 1925, are situate in an area affected by an alteration of boundaries, and the Minister is satisfied that differential rating should be applied to such area, a clause should be incorporated in any Order issued by the Minister under the provisions of Section 46 of the Local Government Act, 1929, providing that differential rating shall not apply to such special hereditaments.

Valuation of Special Properties in Urban Areas.

(Form 4, page 135).

(31) The County Council has endeavoured to reach agreement with the Borough and Urban District Councils in the County as to the determination of the percentage deductions in respect of special hereditaments which belong to Class 3 specified in the first column of the table contained in Part 2 of the Second Schedule to the Rating and Valuation Act, 1925, and has succeeded in obtaining such agreement in all cases other than the Boroughs of Gravesend and Rochester and the Urban District of Herne Bay. No proposals are made by the County Council in relation to the three districts named and the question in relation to such districts is left for the Minister to determine.

Assessment Areas and Guardians Committee Areas.

(Forms 5 and 6, pages 137 to 143).

(32) The question of the revision of the boundaries of Assessment areas and Guardians Committee areas to correspond with the re-arrangement of county districts has been considered by the County Council, and column 6 of Forms 5 and 6 indicates the effect of the proposals upon the boundaries of the areas concerned.

(33) In relation to the revision of the constitution of the Assessment Committees and Guardians Committees, consideration will be given to the formulation of amending schemes under the provisions of the Rating and Valuation Act, 1925, and of the Local Government Act, 1929, respectively, to come into operation on the appointed day as fixed by any Order made by the Minister under Section 46 of the Local Government Act, 1929.

Petty Sessional Divisions and Areas.

(Form 7, pages 145 to 162).

(34) The effect of the proposals of the County Council upon the boundaries of Petty Sessional divisions and areas is shewn in column 5 of Form 7. A number of parishes are at present divided between two or more Petty Sessional divisions or areas and the Minister will no doubt consider it desirable that the whole of a county district or parish shall, where possible, be comprised within one Petty Sessional division or area and will provide accordingly.

Joint Boards and Committees, etc. (Form 8, pages 164 to 175).

Burial Authorities. (Form 9, pages 176 to 179).

Agreements. (Form 10, pages 181 to 191).

(35) The Joint Boards and Committees, and other combinations of local authorities are indicated in Form 8. The Burial Authorities are indicated in Form 9 and in Form 10 will be found a list of agreements made by various local authorities with respect to the whole or part of their areas. Every endeavour has been made to obtain full particulars of these items and the statements are compiled from the information furnished by the local authorities concerned.

Police Districts. (Form 11, pages 193 to 209).

(36) The Police Districts in the administrative County are shewn in detail on Form 11. The effect of the proposals of the County Council upon the boundaries of such districts are set out in column 5 thereof.

(37) It appears desirable that the whole of any county district should, where possible, be in one police district, and in this connection attention is called to proposals Nod. 28, 29 and 94, which affect the area of the County Police and the Metropolitan Police District. Three parishes in the Bromley Rural District, as at present constituted, namely, Chelsfield, Cudham and Knockholt, are within the County Police area and the remainder of the parishes in the Bromley Rural District, as at present constituted, are within the Metropolitan Police District. As the proposed new Urban District of Orpington will comprise one civil parish, incorporating the three aboved named civil parishes, it is proposed that such parishes shall be transferred from the County Police area to the Metropolitan Police District.

(38) In relation to the areas affected by the minor adjustment of boundaries between the Crayford and Dartford Urban Districts, the former is within the Metropolitan Police District and the latter within the Dartford District of the County Police area. It is proposed that the transferred areas should be included in the respective police districts in which the areas to which they are transferred are situate. In this case, however, the rateable values and populations of the Urban Districts concerned are not altered by the proposals, the areas affected being, mainly, saltings.

Coroners' Areas.

(39) The revision of Coroners' areas, consequential upon the readjustment of the boundaries of county districts and parishes, has also been considered and it is proposed that a separate amending scheme should be formulated in accordance with the provisions of the Coroners (Amendment) Act, 1926, and submitted for the approval of the appropriate Government Department.

CONCLUSION.

(40) The County Council has used every endeavour to present agreed proposals in so far as are compatible with the main objects of the review, and it is pleased to be in a position to state that the proposals now submitted are made with a great measure of agreement on the part of the local authorities concerned.

(41) The County Council desires to record that, on the whole, its efforts have been materially assisted by the spirit of co-operation and constructive suggestion which throughout the negociations has been manifested by the local authorities and the local government officials concerned, and is grateful for the courtesy and consideration which it has received from them.

(42) The spelling of all place names in this report is as set out in the Registrar-General's Census of England and Wales 1921, and the population figures for 1931 are the figures indicated in the Registrar-General's Preliminary Report of the Census of England and Wales, 1931, which it is understood are provisional and subject to correction in the substantive census reports to be issued later.

(413) Shadoxhurst Parish.

No change.

(414) Smarden Parish.

No change.

(415) Westwell Parish.

No change.

PART V.

Proposals in relation

to the

riverside boundaries of the Districts,

including Boroughs, and Parishes

adjacent to the River Medway.

RIVER MEDWAY.

(416) The $\frac{1}{2}''$ Diagram Map of Kent (Ordnance Survey 1928) has printed upon it the following :—

> "NOTE.—The ancient course of the River Medway from Sheerness to "Hawkwood up to the high water mark together with all creeks and branches "of the river and the islands surrounded by the same is understood to form part "of the Municipal Borough of Rochester. The Parishes partly within and partly "without the Municipal area remain to be dealt with under the Local Govern-"ment Act, 1894, by the County Council."

The proposal of the Kent County Council under Section 46 of the Local Government Act, 1929, is that the riverside boundaries of the Districts, including Boroughs, and Parishes adjacent to the River Medway and its creeks and branches from Hawkwood to Sheerness should be defined as being in the centre of the river, and as printed on Maps A, B.6 and B.11 accompanying this report. By this definition the Rainham-Otterham Creeks area if not now included will be included within the boundaries of the Borough of Gillingham.

It is not proposed that such definition of boundaries should affect the rights, titles and privileges of the Conservators of the River Medway under the provisions of the Medway Conservancy Act, 1881.

PART VI.

APPENDICES.
